ought exercise its environmental preeminence as gateway to the Great Lakes, and hold in contempt those entities of the Pollution for Profit Conglomerate, in the service of foreign principalities, that would move in on private protectors of Americas natural resources, in the name of corruption tax revenues for hard pressed municipalities with short term, unsustainable benefit to the people, quickly unaccounted for.

Further it is stated that:

The collective value of those who have devoted their GM earned resources to protect the Enviroment following the admonitions of the Roosevelt, Nixon, Carter and Clinton administrations, and now the Obama appeals to civic duties, at great personal cost, now, very vulnerable to such seditious predations, now, mentally defective from drinking the substandard protected waters they tax, have the intangible value of SUBSTANTIAL stock Ownership to meet notice of such (a)l., and be provided an order of protection, and those who have moved recently by falsification of the Official Record in Wisconsin, be held

in contempt of Court for their
usurpations of UAW-GM legal services
documents that act as Testamentary
Land Trust to protect the greater good.

The image of General Motors, and the soon
to emerge New GM (CBGM, Citi Bank-
Global Management?), have been harmed
by this bankruptcy, all participants sharing
some fault, but one.

Ervin A. Woodke whose GM paycheck,
shares, supported five families, only one
his own, who did the work of five union
employees, who warned GM thru his
WWII U.S. training about many of its global
impacts, and urged Nixon to create the E.P.A.,
who also properly retrained new African-
American GM employees, mistreated for
Union biased motives, who set aside
the last stand of forest not clear cut by
the pioneers to offset the environmental
degradations everyone shares blame for,
thru hedonistic transport beyond any real
need, in the name of "employee benefits,
legacy: this mans enduring estate should
be protected jealously by law, as an
example of Public service over Private gain.

respectfully,

 Ervin A. Woodke

IN BRIEF

After a Wisconsin Civil Court dismissed a polluter plaintiffs partition, to void UAW-GM protections of the whole eco-system in question, acceding to the Michigan and New York Courts priority and pre-eminence, polluter plaintiffs systemically abused the mails and wire services to obtain the title of Personal Representative of Ervin A. Woodke, to dishonor his instructions and intents, upheld for 16 years until the demise of GM.

The enclosed appointment thru granting of ancillary letters of administration, without notice, hearing, motion, Court identification, process circumvention during the plaintiffs withdraw of spurious motion as COVER for appointment thru misapplication of notice procedure contains engineered errors of death, birth and domicile for double file-bookkeeping frauds, on the Courts. (note date relevant to orders)

Beyond ecological concerns this crime has great bearing on the people of New York in regards to the 9/11 cover-up commissioner Jim Thompson's role in the appointment of N.Y. Sts. Atty. Patrick Fitzgerald as Illinois Federal Prosecutor and the Murder of World Trade Center, FBI Tinley Park Agent O'Neil, aware of this earlier, Estate, murders. (1998)
